(Chapter 8.5.2 in *Elements*)

Availability of image plates and image plate readers (in 2013)

Image plates have been available from Fujifilm, about \$1000 for 20- x 25-cm size, up to 45 x 80 cm. Current information is that stocks of imaging plates may have been exhausted; meanwhile no new supplier is known. Imaging plate readers have been available from Fuji, but at the time of writing are not. However, GE Health Care at <http://www.gelifesciences.co.jp> or Tsukuba-Ieda Chemistry at <http://www.ied.co.jp> may distribute them. MAATEL S. A., 495 rue de Pommarin-38340 VOREPPE France, manufactures readers.
